

FISCAL NOTE

House Bill 117

Committee: County and Municipal Government

Sponsor: Representative Jim Hill

Analyst: Hunter Lapp

Date: 01/26/2026

House Bill 117 as passed the House of Representatives could decrease the obligation of the county commissions by an undetermined amount dependent on the difference in the cost of any services purchased through a county procurement program and the cost of such services otherwise procured under current law.

This bill could also authorize county commissions to adopt a procurement program that provides significant administrative savings, instead of only cost savings, as provided by current law.
